4c. Administration Manager Krok advised that the Motorola mobile and portable radios for the Interoperability Network of the South Bay (INSB) should be received today. He asked if the departments would like Commline to attach their asset tags to the radios.

Sgt. Gaglia stated that Hermosa Beach Police Department does not.

Hawthorne IT Armstrong stated his intent to advise Authority staff.

4d. Administration Manager Krok explained Authority staff's suggestion that, instead of the Motorola modem, the Sierra Wireless MP70 modem be used for the INSB.

Hawthorne IT Armstrong explained that Hawthorne will continue to use Sierra Wireless MP70 modems. But, they will need to be upgraded for the INSB and it will be necessary to ensure the vehicles have enough antennae to handle Wi-Fi. He confirmed that El Segundo's forthcoming Rocket IOT body cameras will work with the mobile data computers (MDCs); however, GST mapping will not.

Captain Ishii asked that Executive Director Mailloux prepare a memorandum to the departments with the recommendation to use the Sierra Wireless MP70 modem for the INSB.

4e. Hawthorne IT Armstrong related his intent to distribute listings of vehicles/user name, and grand master privileges in the Tiburon system for the departments' review.

4f. Hawthorne IT Armstrong advised that, in an effort to avoid apparent security problems, patches and upgrades will be made to the Net Motion system. He asked that the Technical Services Department notify Hawthorne IT of any issues.
